 www.intelligere.ltd

Building upon our success with End User solutions, Intelligere is uniquely positioned to support our customers throughout the entire IT lifecycle from purchasing decisions, design, implementation, deployment and operations. As such, Intelligere have developed a dedicated Networking specialist team with experience working with customers to provide a full life cycle model of professional, managed, and support services including strategy, consulting, implementation and design.

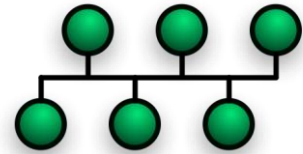

Our focus remains on providing a stable, reliable environment for your End-Users, but as the data centre continues to evolve through radical transformation, Intelligere can process and deliver our solutions through our extended Networking capability.

Wide Area Network

Data Centre Network

Local Area Network

Never before has the network been so tied to business outcomes. Users must be able to securely and seamlessly access business applications and data anytime, anywhere, regardless of where those applications and data reside.

Our team of consultants, solution architects and engineers work collaboratively with our customers from understanding the business objectives through to implementation and operations. Our customers can now benefit from smarter solutions for optimising end user solutions incorporating networking and scaling infrastructure whilst continuing to simplifying IT operations.

Why work harder than you need to? Get in touch today to discover how we can support you to deliver a truly exceptional end user experience.
